

DEVANAND TB

FLUTTER DEVELOPER

I am an experienced Flutter developer skilled in creating user-friendly mobile apps using Dart, state management, and API integration. Seeking a full-time role to apply my expertise and contribute to innovative and impactful projects.

SKILLS

- Flutter
- Dart
- Getx
- Provider
- Bloc
- Hive
- Sqflite
- Sqflite
- Firebase
- Api Intergration
- Figma Design
- Self learning
- Data structure & Algorithms
- Html & Css

PROJECTS

STUDENT MANAGEMENT APPLICATION

4/2024 - 5/2024

I developed a Student Management App using Flutter and Bloc, featuring CRUD operations for student data and API integration. It's user-friendly and responsive.

TOURNIFY - A TOURNAMENT APPLICATION

11/2023-1/2024

I developed a Tournament Creator application allowing users to create tournaments, manage up to 8 teams per tournament, generate fixtures, and track scores. Users can search for and view tournaments. The app utilizes Firebase Auth for authentication and Firebase Database for data storage. Additionally, Hive is used for local note storage.

NETFLIX CLONE - USING API INTEGRATION

3/2024 - 4/2024

I developed a Netflix clone using Flutter, focusing on replicating the design and user interface. The app mimics Netflix's layout and user experience, showcasing my skills in UI development.
